Darreshahr, Ilam, Iran

Marital Status: Single

Military Service: Served

Freelancer .NET developer

Creative and detail-oriented .NET developer with a strong background in C#, .NET MAUI, Blazor, and ASP.NET Core.

I specialize in developing high-performance, cross-platform applications for Windows, Android, and the web.

With hands-on experience in designing and building full-stack solutions from scratch - without relying on external frameworks.

I focus on speed, clean UI/UX, and maintainability. Passionate about learning and bringing innovative ideas to life.
